

Critical Risks

Critical Risks are those that can seriously hurt or even kill us or our work mates.

We focus our effort ensuring the controls put in place for these risks are effective at keeping us safe.

We're continuing to develop this list and will balance it out with more health-related risks.

Mobile Plant & Equipment

Hazardous Energy

Psychosocial Hazards

Excavations, Trenching, & Tunnelling

Aggression & Violence

Lifting Operations

Working Around & Above Water

Fixed Plant & Equipment

Hazardous Substances

Confined Space

Driving

Traffic Management

Fatigue

Working at Heights
